

# Aluminum Anodizing Processes & Products

We offer a variety of cleaners, etches, deox, and zincates for aluminum alloys. Trivalent passivates and dyes are also available.

CLEANERS

ETCHES

DESMUTTERS & DEOXIDIZERS

ZINCATES

PASSIVATES

- **Cleaners**

**COLPREP AL ASC** a non-etch alkaline cleaner for aluminum alloys

- **Etches**

**COLPREP AL BRIGHT** a cleaning etch or bright dip for aluminum alloys

**COLPREP AL SATIN ETCH** a satin etch for aluminum alloys

**COLPREP RH CLEANER** a cleaner/satin etch for aluminum alloys

- **Desmutters & Deoxidizers**

**COLPREP AL DEOX 603-XL** a two-system desmutter/deoxidizer for aluminum 6063 and most other aluminum alloys

- **Zincates**

**COLPREP EVERBOND** a zinc immersion coating for aluminum alloys

- **Passivates**

**COLDIP® ALPASS 455 CS** a trivalent passivate for aluminum alloys

*Dyes are available upon request.*

**COLUMBIA®**

**CHEMICAL**

Simplifying Surface Finishing®
