COLCLEAN SOAK 200L ADDITIVE

TECHNICAL DATA
 04-27-20

COLCLEAN SOAK 200L ADDITIVE

LIQUID DETERGENT ADDITIVE

COLCLEAN SOAK 200L ADDITIVE	is a biodegradable blend of detergents formulated to improve the cleaning action of alkaline soak cleaners.
COLCLEAN SOAK 200L ADDITIVE	may be used in soak operations to help remove tough soils such as grease, drawing compounds, and oils that would not normally be removed by the current cleaner under normal operating conditions.
COLCLEAN SOAK 200L ADDITIVE	is especially useful for the removal of paraffinic soils.
COLCLEAN SOAK 200L ADDITIVE	reduces energy costs by improving the cleaning at lower temperatures.
COLCLEAN SOAK 200L ADDITIVE	contains no solvents, phosphates, or silicates.

OPERATING PARAMETERS

Concentration: 1/4 to 4% by volume of the cleaning solution

Temperature: Ambient to 190 degrees F

Always check compatibility with soak cleaner before use.

HANDLING & STORAGE

Columbia Chemical recommends referring to the specific product Safety Data Sheets for safety, handling, and storage precautions.

NON-WARRANTY

The data contained in this bulletin is believed by Columbia Chemical Corp. to be accurate, true, and complete. Since, however, final methods of use of this product are in the hands of the customer and

beyond our control, we cannot guarantee that the customer will obtain the results described in this bulletin, nor can we assume responsibility of the use of this product by the customer in any process which may infringe the patents of third parties.
