COLCLEAN DESCALER 100

LIQUID DESCALING ADDITIVE FOR ALKALINE SOAK AND ELECTROCLEANING TECHNICAL DATA

07-01-08

COLCLEAN DESCALER 100

COLCLEAN DESCALER 100 is a unique liquid descaling additive for use in both Soak and Electrocleaners.

COLCLEAN DESCALER 100 greatly accelerates descaling, degreasing, rust removal, and smut removal of the existing cleaners.

COLCLEAN DESCALER 100 is an economical, easy to use, over-the-side additive.

COLCLEAN DESCALER 100 does not contain chelators or phosphates.

COLCLEAN DESCALER 100 is non-hazardous.

OPERATING CONDITIONS

Concentration: 0.1 – 1.0% (Optimum – 0.5% by volume)

NOTE ** For best results maintain the soak and electrocleaner at optimum conditions. COLCLEAN DESCALER 100 should be added to both the soak and electrocleaner for maximum descaling benefits.

HANDLING & SAFETY PRECAUTIONS

Use normal precautions when handling COLCLEAN DESCALER 100 – wear protective clothing, rubber gloves and adequate eye protection. As with most chemicals, use in well ventilated areas.

COLCLEAN DESCALER 100 is stable on standing and has a shelf life of two years.

FREEZABILITY: As with most chemical products, it is preferable that freezing be avoided. However if freezing should occur during transportation or storage, directions for handling the products covered in this technical data sheet are as follows:

If COLCLEAN DESCALER 100 freezes, simply allow the container to completely thaw and bring to room temperature of 70-75F/ 21-24C. Thoroughly mix to bring back to original condition.

NON-WARRANTY

The data in this bulletin is believed by Columbia Chemical Corp. to be accurate, true, and complete. Since, however final methods of use of this product are in the hands of the customer and beyond our control, we cannot guarantee that the customer will obtain the results described in this bulletin, nor can we assure any responsibility of the use of this product by the customer in any process which may infringe the patents of third parties.
