

COLDIP[®] NI-Z CLEAR 250

Clear Trivalent Passivate for Zinc-Nickel Alloy

Additional Columbia Chemical topcoats and sealers for enhanced handling and corrosion protection

Zinc-Chro-SHIELD[®]

Thin-film inorganic topcoat for added corrosion resistance.

Zinc-Chro-SHIELD[®] OS

High-performance organic sealer for extended corrosion protection. Provides a self-healing mechanism to trivalent passivated surfaces.

Zinc-Chro-PELLENT

Thin-film topcoat with hydrophobic properties that repels water and humidity for added corrosion resistance.

Lac-Chro-SEAL

High-gloss, non-hazardous, and non-foaming lacquer that prevents fingerprinting for enhanced handling protection.

ELV, ROHS & REACH Compliant

Unique Clear Trivalent Coating

Provides an aesthetically pleasing clear conversion coating.

Superior Corrosion Protection

Produces a finish that exceed 250 hours of neutral salt spray to white corrosion without a sealer. Exceeds 500 hours to first white corrosion when top coated with Zinc-Chro-SHIELD[®] or other Columbia Chemical sealers and topcoats.

Economical

Delivers a cost-effective alternative to high corrosion finishes.

Minimal Alloy Loss

Operates under mild conditions which allows minimal alloy loss during passivation and helps maintain nickel in deposit.
