WHAT IS THE FUTURE OF DECORATIVE CHROME PLATING?

Advancements in Decorative Trivalent Chromium Technology

JANUARY 28, 2022

8:30AM-9:15AM.

**SPEAKER: JEFF BOEHMER, CEF
COLUMBIA CHEMICAL**

With mounting legislative pressure to eliminate decorative hexavalent plating, the industry is responding. Jeff Boehmer, CEF, Director Business Development for Columbia Chemical has an extensive background in surface finishing, including management of a multimillion-dollar decorative POP shop. Boehmer regularly lends his expertise to organizations looking to make the switch to decorative trivalent plating. He will present information on cost, operational and performance differences between hexavalent and trivalent chromium as well as the new trivalent electrolyte with reclaim capabilities.
