

PRETREATMENT CLEANERS AND PRODUCTS

- Soak Cleaners
- Electro Cleaners
- Spray Cleaners
- Acid Pickling Additives

PRETREATMENT CLEANERS AND PRODUCTS

Soak Cleaners

- COLCLEAN SOAK 1213** mild alkalinity, non-silicated soak cleaner for use on all base metals except zinc die castings
- COLCLEAN SOAK 1218** medium alkalinity soak cleaner very effective in removing water-soluble oils
- COLCLEAN SOAK 1230** highly phosphated, non-silicated soak cleaner for drawing compounds and water-soluble oils
- COLCLEAN SOAK 70** mild alkalinity soak cleaner for steel, copper and brass
- COLCLEAN SOAK 71** high alkalinity steel soak cleaner
- COLCLEAN SOAK 733 EXPL** steel soak cleaner; can also be used as electro cleaner.
- COLCLEAN SOAK 81L MC** liquid soak cleaner additive system – economical uses separate caustic additions
- COLCLEAN DESCALER 100** liquid additive used to accelerate descaling; used in soak or electro cleaner solutions.
- COLCLEAN SOAK 200L ADDITIVE** liquid detergent additive for alkaline soak cleaners; solvent-free
- COLCLEAN SOAK 255L ADDITIVE** liquid detergent additive for alkaline soak cleaners; contains solvents

Electro Cleaners

- COLCLEAN ELECTRO 200** medium alkalinity electro cleaner when low foam conditions are desired
- COLCLEAN ELECTRO 200L MC** liquid electro cleaner additive system- economical uses separate caustic additions
- COLCLEAN ELECTRO 215** high alkalinity, heavy duty electro cleaner
- COLCLEAN ELECTRO 231** medium duty electro cleaner
- COLCLEAN ELECTRO 331** medium duty electro cleaner with built in chrome reducer
- COLCLEAN SE 237** medium alkalinity compound; can be used as soak or electro cleaner.
- COLCLEAN SE 237L MC** liquid additive system; can be used as soak or electro clean-economical uses separate caustic additions

Spray Cleaners

- COLCLEAN SP 28-F** high alkalinity spray cleaner

Acid Pickling Additives

- PICKLE PAL** non-hazardous pickle inhibitor for hydrochloric and sulfuric acid pickle solutions
- PICKLE PAL PLUS** non-hazardous pickle inhibitor with additional additive to reduce fumes and spray on pickle tanks
- COLPREP AS 1510** acid salt formula for removal of alkali residues
- COLPREP PICKLE POWDER W** dry acid salt powder that replaces mineral acids
